Computer science graduate with 3+ years of experience. I am looking to join an organization with whom communication and teamwork are paramount. Have a strong delivery track record, excellent problem-solving skills, and high interest in all the latest tools. I would jump at any opportunity to continue growing my skillset. Acquiring hands on skills working with new technologies and modern development methodology, taking care of the entire development life cycle. A desire to work in a fast-paced and challenging environment.
